

DucoSlide : Specification text

Make : Duco ‘Ventilation & Sun Control’

Type : DucoSlide 60 F LuxFrame

Description :
DucoSlide 60 F LuxFrame is an external solar shading system made from aluminium sliding panels that keeps heat out by stopping the direct rays of the sun from striking the windows while enhancing the use of daylight. The slender frame sections give the DucoSlide 60 F LuxFrame a very elegant appearance. DucoSlide provides more privacy because it shields glass façades without obstructing the view from inside.

DucoSlide 60 F LuxFrame is an Architectural Facade System made of sliding panels that run on a vast range of guide systems. The sliding panels (manual or electrical operation) feature a quick and easy installation. DucoSlide 60 F LuxFrame is available in F1 and all RAL colours
